Experience

Software Developer Engineer 1 May 2025 – Present
HeyEV

- Converted from Software Development Intern to SDE 1 after a 12-month internship, developing and maintaining a fintech platform using React.js, Node.js, TypeScript, MongoDB, and PostgreSQL.
- Own API design and development, proactively identify edge cases, participate in architectural discussions, and manage deployments on AWS and GCP to ensure reliable, scalable system

Full Stack Developer Intern July 2024 – Aug 2024
Search N Play Infotech

- Developed and maintained production-scale web applications using Next.js and TypeScript, working closely with engineering teams on API design, database optimization, and scalable backend systems to support real-world business requirements.

Placement Coordinator July 2024 – Dec 2025
Training and Placement Cell, Rajasthan Technical University, Kota

- Led the university Placement Cell, managing a 50+ member cross-functional team and coordinating 100+ campus recruitment drives, strengthening leadership, event management, and industry collaboration capabilities.

Projects

Codify (Edtech) 

- EdTech platform where students can purchase courses, and users can create, upload, and sell their courses, Live Student Chat Community, and Online Assessments. Implemented secure authentication and seamless payments.
- Tools Used: React.js, Express.js, Socket.io, Cloudinary, Razorpay, Bcrypt.js, JWT, MongoDB, Redux.js

Vrental 

- Developed a rental platform where owners can register their apartments, and users can search for nearby listings and send interest requests to owners. Implemented secure authentication, seamless interactions.
- Tools Used: Next.js, Typescript, Mongodb, Bcrypt.js, Jwt, Cloudinary, Node.js, Tailwind Css

Zizz - Gummies Shopping app 

- Built a fully functional eCommerce platform for selling mobile covers, featuring product listings, shopping cart, secure checkout, and user authentication.
- Tools Used: Next.js, Typescript, Shopify, GraphQL, Algolia, Nginx, ShadCN, Tailwind Css

Event Management System 

- QR-based team attendance, automatic poster and certificate generation, and email reminders for participants. ntegrated payment system for event fees, along with a real-time attendance dashboard to track participation and team hiring.
- Tools: Next.js, Node.js, Nodemailer, Typescript, TailwindCSS, MongoDB, Shadcn

Skills

Programming Languages: C, C++, OOPS, Javascript, TypeScript, CSS, HTML
Frontend: Next.js, React.js, Tailwind CSS, Framer-Motion, ShadCN
Database And State Management: Firebase, MongoDB, SQL, PostgreSql, Redux-Toolkit, Zustand
Backend And Pipeline Next.js, Node.js, Express.js, AWS, Prisma, BigCommerce, Vercel, Nginx, Socket.io
VCS And Others Git, Github, Rest-API's, GraphQL, NPM, Docker, Yarn, Algolia, Figma

Education

Rajasthan Technical University, Kota Nov 2022 – May 2026
Computer Science Engineering

- CGPA: 9.3 | Coursework: Operating System, DBMS, Computer Networks, Data Structure's and Algorithm's

Achievements

- Solved 350+ problems across LeetCode and GeeksforGeeks.
- Runner-Up at HackCrux hosted by LNMIIT Jaipur and participated in the national-level Smart India Hackathon (SIH).
- Conducted a Web Development workshop with DSC RTU Kota for 250+ participants.
- Led the Vikram Space Exhibition 2025 in collaboration with ISRO scientists and served as a Core Organizer of THAR 2024, managing large-scale technical events and stakeholder coordination.
